**20 - 21 March 2017 (Two days)**

**TPS Seminar – covering**

**Focusing on the key points of Lean Production System.**

# TPS : Toyota Production System

## INTRODUCTION

The Overseas Human Resources and Industry Development Association (HIDA), the former Association for Overseas Technical Scholarship (AOTS), is providing training opportunities for foreign engineers and managers of the developing countries to promote technical cooperation by dispatching Japanese experts overseas and training in Japan.

## TPS Seminar by HIDA in Chennai

This seminar is designed to deepen the participants' understanding of Toyota Production System (TPS) dealing with the concept of "Lean Manufacturing", its application to the various production system, and the productivity improvement methods through at the shop floor together.

# TPS : Toyota Production System

## TOYOTA PRODUCTION SYSTEM

Based on the concept of "complete elimination of unproductiveness", TPS is the system penetrated by that concept, through the entire system pursuing optimum streamlining. This system continuously develops through the repetitive Kaizen ability floor cost reduction with Jissen (practice) principle considering Genchi-genbutsu (actual workplace) principle as the best.

TPS theory is widely utilized not only into the manufacturing Industries but also in the non manufacturing Industries also (the publishing business, construction industry, service trade, government offices, and so on).

# TPS : Toyota Production System
